

## Existing TAA04 Support Materials

To develop the capacity of the Federation of Parents and Citizen's Associations of NSW to implement the 'Discuss – Display – Do' RPL Model, assessment advocates, regional assessment leaders, and a training and assessment leader need to be trained and assessed in units of competence from the TAA40104 Certificate IV in Training and Assessment.

The following table presents a summary of the roles, skill requirements and related resources that will support the delivery of these units.

An overview of the skills, knowledge, roles and responsibilities of the training and assessment participants of the project can be found on page 2 of this document.
